Dear UC faculty and staff endorsees:

Thank you for your letter in support of the College Student Right to Access Act (SB 24), aimed at increasing access to medication abortion at student health centers on University of California and California State University campuses.

We believe students should have access to affordable and convenient reproductive health care of their choosing. UC student health centers currently provide students with access to comprehensive reproductive health services, including referrals to nearby facilities for abortion services upon request. UC will continue to work with policy makers and legislators to ensure accessible, quality health care for our students.

With regard to medication abortion, UC will work to implement the provisions of SB 24 at our campus health centers as soon as possible, with a continued focus on providing safe, high-quality, and accessible services to our students, in addition to the best patient experience possible.

Yours very truly,

A handwritten signature in black ink, appearing to read "Janet Napolitano".

Janet Napolitano
